eu-LISA | Eurodac

Eurodac Monthly Statistics

Information note: June, July, August, September and October publication

November 2026

1. General Remarks

Since 12 June 2026 when the new Eurodac started operations, eu-LISA has been continuously refining the reporting processes to ensure the accuracy and consistency of the statistical data.

Pursuant to Article 12.2 Regulation (EU) 2024/1358, the current publication includes the monthly statistics for June, July, August, September and October.

2. Specific Remarks on Data

Some of the statistics requested under Article 12.1 of Regulation (EU) 2024/1358 are not yet available.

- In certain cases, the required data will only be available following the development of new components of the recast Eurodac (e.g. data on category 7 and data on category 8).
- In others, the availability of data depends on the development and availability of CRRS, a core interoperability component. The CRRS will, for example, allow generating statistics related to biographical data (e.g. age of the third-country nationals).

Please also note that, for some data points, although the overall figures are provided, it is currently not technically feasible to produce a breakdown by Member State. Similarly, currently it is not possible to provide disaggregated statistics by sex and year of birth.

Hungary connected to Eurodac in September; therefore, no data was to be reported prior to that.

3. Specific Remarks on June Data

June represented the first month of operation of the new system and served as an important learning period. As a result, statistical outputs were generated using a different reporting approach from the one subsequently adopted for the other months.

Consequently, the structure and availability of the June files are limited in comparison to the ones produced for July, August, September and October.

To facilitate interpretation, we have carried out a mapping exercise to identify the equivalent files across reporting periods. In addition, users should be aware that certain files available from July onwards are not available for June.

In specific:

June	**July and onwards**
N/A	*CAT1_against_CAT2_marked_for_RD_HITs_repartition_per_MS_in_a_month*
N/A	*CAT1_against_CAT3_marked_for_RD_HITs_repartition_per_MS_in_a_month*
N/A	*CAT1_against_CAT9_marked_for_RD_HITs_repartition_per_MS_in_a_month*

N/A	*CAT2_against_CAT2_marked_for_RD_HITs_repartition_per_MS_in_a_month*
N/A	*CAT2_against_CAT3_marked_for_RD_HITs_repartition_per_MS_in_a_month*
N/A	*CAT2_against_CAT9_marked_for_RD_HITs_repartition_per_MS_in_a_month*
N/A	*CAT3_against_CAT2_marked_for_RD_HITs_repartition_per_MS_in_a_month*
N/A	*CAT3_against_CAT3_marked_for_RD_HITs_repartition_per_MS_in_a_month*
N/A	*CAT3_against_CAT9_marked_for_RD_HITs_repartition_per_MS_in_a_month*
N/A	*CAT9_against_CAT2_marked_for_RD_HITs_repartition_per_MS_in_a_month*
N/A	*CAT9_against_CAT3_HITs_repartition_per_MS_in_a_month*
N/A	*CAT9_against_CAT3_marked_for_RD_HITs_repartition_per_MS_in_a_month*

June	**July and onwards**
Number_of_search_by_biometric_msle_and_search_by_alphanumeric_msle_requests	*Number_of_CAT4_alphanumeric_searches_per_MS_in_a_month*
	Number_of_CAT4_biometric_searches_per_MS_in_a_month
Number_of_search_by_biometric_europol_and_search_by_alphanumeric_europol_requests	*Number_of_CAT5_alphanumeric_searches_per_MS_in_a_month.*
	Number_of_CAT5_biometric_searches_per_MS_in_a_month
Number_of_hits_returned_by_search_by_biometric_msle_and_search_by_alphanumeric_msle	*Number_of_HITs_returned_when_CAT4_alphanumeric_search_per_MS_in_a_month*
	Number_of_HITs_returned_when_CAT4_biometric_search_per_MS_in_a_month
Number_of_hits_returned_by_search_by_biometric_europol_and_search_by_alphanumeric_europol	*Number_of_HITs_returned_when_CAT5_alphanumeric_search_per_MS_in_a_month*
	Number_of_HITs_returned_when_CAT5_biometric_search_per_MS_in_a_month

Changes from August to September

Up until August, the file *Number_of_CAT1_first-time_applicants_in_month* was not broken down by Member State. From September onwards, it is.
