Table of Contents

Introduction	4
1. Number of data sets transmitted on persons referred to in Article 9(1), 14(1) and 17(1) of the Eurodac Regulation.....	5
2. Number of hits related to data for applicants for international protection who have lodged an application for international protection in another Member State	6
3. Number of hits related to data for persons apprehended crossing the external border of a Member State irregularly who have subsequently lodged an application for international protection.....	7
4. Number of hits related to data for persons found illegally staying in a Member State who had previously lodged an application for international protection in another Member State.....	8
5. Number of fingerprint datasets which the Central System had to request more than once from the Member States of origin because the fingerprint datasets originally transmitted did not lend to comparison	9
6. Number of datasets marked, unmarked, blocked and unblocked in accordance with Article 18(1) and (3) of the Eurodac Regulation	10
6.1 Number of datasets marked.....	10
6.2 Number of datasets unmarked.....	11
6.3 Number of datasets blocked	11
7. Number of hits related to marked data for persons referred to in Article 18(1) for whom hits have been recorded following an application for international protection in another Member State	12
8. Number of hits related to data for persons referred to in Article 18(1) for whom hits have been recorded with a view to checking whether a third-country national or a stateless person found illegally staying within the territory of a Member State has previously lodged an application for international protection in another Member State	13
9. Number of requests made by law enforcement designated authorities to access Eurodac and hits received as referred to in Article 20(1) of Eurodac Regulation.....	14
9.1 Number of requests by law enforcement	14
9.2 Number of hits against data related to applications for international protection as per Article 9(1) of Eurodac Regulation.....	15
9.3 Number of hits against data related to persons apprehended crossing the external border irregularly as per Article 14(1) of Eurodac Regulation	16

Introduction

Pursuant to Article 8(2) of Regulation (EU) No 603/2013¹ of the European Parliament and of the Council (here after referred to as the “Eurodac Regulation”), at the end of each year statistical data on Eurodac for each Member State² shall be made public as follows:

- the number of data sets transmitted on persons referred to in Article 9(1), 14(1) and 17(1) of the Eurodac Regulation,
- the number of hits for applicants for international protection who have lodged an application for international protection in another Member State,
- the number of hits related to data for persons apprehended when crossing the external border of a Member State irregularly who have subsequently lodged an application for international protection,
- the number of hits related to data for persons found illegally staying in a Member State who had previously lodged an application for international protection in another Member State,
- the number of fingerprint datasets which the Central System had to request more than once from the Member States of origin because the fingerprint dataset originally transmitted did not lend itself to comparison using the computerised fingerprint recognition system,
- the number of data sets marked, unmarked, blocked and unblocked in accordance with Article 18(1) and (3) of the Eurodac Regulation,
- the number of hits related to data for persons referred to in Article 18(1) for whom hits have been recorded following an application for international protection in another Member State,
- the number of hits for persons referred to in Article 18(1) for whom hits have been recorded with a view to checking whether a third-country national or a stateless person found illegally staying within the territory of a Member State has previously lodged an application for international protection in another Member State,
- the number of requests by law enforcement designated authorities to access Eurodac and the number of hits received as referred to in Article 20(1) of the Eurodac Regulation,
- the number of requests by Europol to access Eurodac and the number of hits received as referred to in Article 21(1)³ of the Eurodac Regulation.

This document provides the above-mentioned statistics for 2015, namely from the date of application of the recast Eurodac Regulation on 20 July to 31 December 2015.

The statistical data presented in this document is a collection of data available from the Eurodac Central system.

¹ Regulation (EU) No 603/2013 on the establishment of 'Eurodac' for the comparison of fingerprints for the effective application of Regulation (EU) No 604/2013 establishing the criteria and mechanisms for determining the Member State responsible for examining an application for international protection lodged in one of the Member States by a third-country national or a stateless person and on requests for the comparison with Eurodac data by Member States' law enforcement authorities and Europol for law enforcement purposes, and amending Regulation (EU) No 1077/2011 establishing a European Agency for the operational management of large-scale IT systems in the area of freedom, security and justice (recast). OJ L 180, 29.6.2013

² Under the term "Member States" the current document refers to the Member States of the EU and Associated Countries which are bound under Union law by the Regulation (EU) No 603/2013, if not further explained. Member States of the EU connected to Eurodac on 31 December 2015 were: Austria, Belgium, Bulgaria, Croatia, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden and the United Kingdom. Associated Countries connected to Eurodac were: Iceland, Liechtenstein, Norway and Switzerland. Cyprus was not connected during the entire reporting period (20 July – 31 December 2015).

³ Europol was not yet connected to Eurodac by 31 December 2015, therefore no data for this point will be presented.

1. Number of data sets transmitted on persons referred to in Article 9(1), 14(1) and 17(1) of the Eurodac Regulation

⁴ Cyprus was not connected to Eurodac from 20 July until 31 December 2015.

⁵ Category 1 data as per Article 9(1) of Eurodac Regulation represents applicants for international protection of at least 14 years of age.

⁶ Category 2 data as per Article 14(1) of Eurodac Regulation represents every third-country national or stateless person of at least 14 years of age that is apprehended by the competent control authorities in connection with the irregular crossing by land, sea or air of the border of that Member State having come from a third-country and who is not turned back.

⁷ Category 3 data as per Article 17(1) of Eurodac Regulation represents a third-country national or a stateless person found illegally staying within the territory of a Member State.

⁸ Belgium was connected to Eurodac as from 23 September; hence it was not connected from 20 July to 22 September.

2. Number of hits⁹ related to data for applicants for international protection who have lodged an application for international protection in another Member State¹⁰

⁹ Hits repartition category1 against category 1. Member States on the left have sent, over the reporting period, a certain amount of cases which have produced hits against the Member States listed across the top. Local hits are produced when the two datasets generating the hit are from the same country.

¹⁰ Cyprus was not connected to Eurodac from 20 July to 31 December 2015 therefore it did not send any transaction during this period. On the other hand, data sent by Cyprus in the past was still available in the Central system.

3. Number of hits¹¹ related to data for persons apprehended crossing the external border of a Member State irregularly who have subsequently lodged an application for international protection¹²

¹¹ Hits repartition category 1 against category 2, Member States on the left have sent, over the reporting period, a certain amount of cases which have produced hits against the Member States listed across the top. Local hits are produced when the two datasets generating the hit are from the same country.

¹² Cyprus was not connected to Eurodac from 20 July until 31 December 2015; therefore it did not send any transaction during this period. On the other hand, data sent by Cyprus in the past was still available in the Central system.

4. Number of hits¹³ related to data for persons found illegally staying in a Member State who had previously lodged an application for international protection in another Member State¹⁴

¹⁸ As per article 18.3, datasets which are marked shall be unmarked as soon as the status (international protection granted) changes and is either revoked ended or the renewal is refused. Similar to the marking, unmarking by the initiator can affect category 1 dataset, and unmarking following the initiator can affect category 1 and/or category 2 datasets.

¹⁹ As per article 18.2, a blocked dataset represents a record which was initially marked (following the granting of international protection) and which is no longer accessible to law enforcement searches due to the fact that international protection was granted at least 3 years ago. On the other hand, the dataset remains accessible (not blocked) for asylum purposes. To be noted that datasets from the Associated Countries (Iceland, Liechtenstein, Norway and Switzerland) and Denmark are also not accessible for law enforcement as the law enforcement elements of the Eurodac Regulation do not yet apply to them.

7. Number of hits related to marked data for persons referred to in Article 18(1) for whom hits have been recorded following an application for international protection in another Member State²⁰

²⁰ Hits repartition category 1 against marked category 1 and marked category 2. Member States on the left have sent, over the reporting period, a certain amount of CAT1 searches which have produced hits against the Member States listed across the top. Local hits are produced when the two datasets generating the hit are from the same country. It is possible that not all Member States are represented, this means that the missing Member States did not produce any hit or that no other Member State had hits against the missing Member State. Cyprus was not connected to Eurodac from 20 July until 31 December 2015; therefore it did not send any transaction during this period. On the other hand, data sent by Cyprus in the past was still available in the Central system.

8. Number of hits related to data for persons referred to in Article 18(1) for whom hits have been recorded with a view to checking whether a third-country national or a stateless person found illegally staying within the territory of a Member State has previously lodged an application for international protection in another Member State²¹

²¹ Hits repartition category 3 against category 1 marked. Member States on the left have sent, over the reporting period, a certain amount of CAT3 searches which have produced hits against the Member States listed across the top. Local hits are produced when the two datasets generating the hit are from the same country. It is possible that not all Member States are represented, this means that the missing Member States did not produced any hits or that no other Member State had hits against the missing Member State. Cyprus was not connected to Eurodac from 20 July until 31 December 2015; therefore it did not send any transaction during this period. On the other hand, data sent by Cyprus in the past was still available in the Central system.

9. Number of requests made by law enforcement designated authorities to access Eurodac and hits received as referred to in Article 20(1) of Eurodac Regulation

9.1 Number of requests by law enforcement

MS	Category 4 ²²
AT	71
DE	11
FI	6
FR	3
NL	4
TOTAL	95

²² Category 4 data as per Article 20(1) of Eurodac Regulation represents the searches performed by the designated authorities. The law enforcement elements of Eurodac Regulation do not apply for the time being to the Associated Countries (Iceland, Liechtenstein, Norway and Switzerland) and to Denmark. This will be possible only after the conclusion of separate agreements currently under negotiations. Practically this means that the five countries cannot perform category 4 searches, and their data is blocked for law enforcement purposes (i.e. not searchable by other Member States).

9.2 Number of hits against data related to applications for international protection as per Article 9(1) of Eurodac Regulation²³

²³ Hit repartition of category 4 against category 1 data. Member States on the left have sent, over the reporting period, a certain amount of searches which have produced hits against the Member States listed across the top. Local hits are produced when the two datasets generating the hit are from the same country.

9.3 Number of hits against data related to persons apprehended crossing the external border irregularly as per Article 14(1) of Eurodac Regulation²⁴
