The European Commission commenced by providing a comprehensive report on **the status of the legal proposals impacting operations of eu-LISA.** This included progress made with ETIAS Consequential Amendments, SIS Recast, EES and Interoperability secondary legislation (implementing and delegated acts). The Executive Director informed members of the Management Board on **the progress made by the Agency with development of the systems at the central level.** Afterwards, in a **tour de table session,** Member States and the partner Agencies provided a thorough status update on **the progress made at national level** and the major challenges they face.
