KEY FACTS

The **QA Company** is developer/vendor of **QAnswer**.

Our mission: Bring the latest advancements in the field of **Generative AI** from research to industry.

Created in: **2019**

Our **main customers** include:

- **DG Conect (Kohesio)**
- **DG Com (EDCC)**
- **DG MARE**
- **Smithonian**
- **Rockwell Automation**

Many AI Tasks

**Semantic Search,
Chat, Data
Extraction, Report
Generation**

**On premises
or
cloud based**

WHAT IS A GENERATIVE ENTERPRISE AI ASSISTANT?

- A) An AI Assistant that know the **context of the enterprise** (name, address, products, sector of activity, name, role of the employee)
- B) An AI that is **connected to the data** of the enterprise
- C) An AI where the Large Language Model is hosted **on the infrastructure of the enterprise**

**A SECURED AND CUSTOMISED
LARGE LANGUAGE MODEL THAT IS
ACCESSIBLE BY ALL EMPLOYEES**

 NEW CHAT

Hello! I am QAnswer Bot, a large language model created by The QA Company. How can I help you today? 😊

Can you write me an email to Stefan Seibert detailing the main use cases of Q-Ansa?

Subject: Exploring Use Cases for QAnswer

Dear Stefan,

I hope this email finds you well.

As we discussed, I wanted to follow up with some key use cases for our flagship product, QAnswer. This powerful platform enables businesses to create AI-powered chat assistants capable of understanding and responding to natural language questions based on specific sources of information.

Here are just a few examples of how QAnswer can benefit your organization:

- **HR Management:** Answer employee queries about policies, benefits, and procedures instantly, freeing up HR staff for more strategic tasks.
- **Project Management:** Provide real-time project updates, track progress against milestones, and answer team member questions regarding deliverables and deadlines.
- **Legal Research:** Quickly locate relevant case law, statutes, and legal precedents within extensive document libraries, streamlining research processes.
- **Website Assistance:** Offer customers instant support by answering frequently asked questions, providing product information, or guiding them through online transactions.
- **Technical Documentation:** Empower users to find answers to technical issues independently by accessing troubleshooting guides, FAQs, and product manuals through a conversational interface.

These are just a starting point – QAnswer’s versatility makes it applicable across numerous industries and departments.

Would you be interested in scheduling a brief call to discuss potential applications for QAnswer within your specific context?

Best regards,

Dennis Diefenbach

Save the date for the next Industry Roundtable edition – on AI technologies - 12 and 13 November in Budapest, Hungary and online

The next edition of the Industry Roundtable will focus on Artificial Intelligence solutions for the Justice and Home affairs area. It will take place on 12-13 November allowing to connect **online**.

The event, titled 'EU Justice and Home Affairs in the Age of AI: Fostering Innovations and Mitigating Risks' will be held in partnership with the Hungarian Presidency and the European Union.

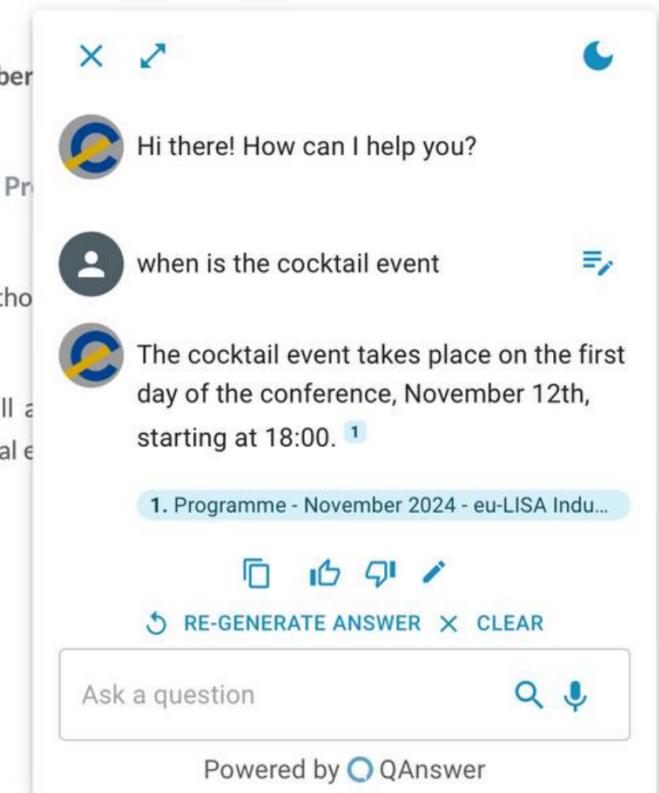

The event will provide a common platform to present and discuss the novel operational challenges of border guards, law enforcement, judicial and asylum authorities with the deployment of AI-based solutions in the context of the new AI Act.

Across one and a half days, the event will entail 5 comprehensive sessions, featuring expert and institutional presentations. The Industry Roundtable will offer networking opportunities with industry leaders, innovators, and experts from national and EU Institutions. An exploration of innovative solutions for compliance, operational efficiency and generative AI.

For more details see the programme page.

Event highlights:

- Gain insights into the latest **regulatory updates** and their impact on AI adoption
- Understand the challenges and opportunities of **AI adoption in public sector** institutions and their **operational efficiency**
- Explore innovative solutions for **biometric recognition and identity security**, compliance, and **fraud detection solutions**
- Discuss the potential of **Generative AI** to enhance public services and improve efficiency, while addressing its challenges and threats

INTERNAL ASSISTANTS

why are you called like this?

I am called P.A.C.I.O.L.I. because I am a digital descendant of Fra' Luca Bartolomeo de' Pacioli, a Renaissance Franciscan friar and mathematician who made significant contributions to the field of accounting. My name is an acronym that stands for "Personal Assistant Chatbot for Informative On-Line Instructions." ¹

how to increase the quota in summa

Unfortunately, the provided documents do not contain information on how to increase the quota in SUMMA.

If you need assistance with this matter, I recommend contacting the SUMMA Helpdesk at EC-SUMMA-HELPDESK@ec.europa.eu for further guidance.

I get an authorisation issue when creating an invoice

I'm happy to help you with your authorisation issue when creating an invoice in SUMMA.

For questions about authorisation, I would like to refer you to your local Local Authorisation Manager (LAM). You can find a list of LAMs at <https://myintracomm.ec.europa.eu/corp/budget/budg-systems/abac/abac-network/Pages/correspondents.aspx>(link to find).

They will be able to assist you with your specific authorisation issue and provide guidance on how to resolve it.

If you have any further questions or concerns, please don't hesitate to ask.

how to make a fund reservation

Creating a Fund Reservation in SUMMA

To create a fund reservation in SUMMA, follow these steps:

1. **Click Create Funds Reservation:** Start by clicking the "Create Funds Reservation" button.
2. **Select Earmarked Fund Document Type:** Click the "Earmarked Fund Document Type" button.
3. **Add a Caption:** Add a caption to your fund reservation.
4. **Fill in Required Fields:** Fill in the required fields, including:
 - o Financial Regulation Required input field (FR2018)
 - o Legal Justification Required input field (Administrative Autonomy)
5. **Add Services for Object:** Click the "Services for Object" menu item.
6. **Create Attachment or External Document:** Click "Create – create attachment and/or Create external document (URL)".
7. **Save:** Click the "Save" (Ctrl+S) button.

Koheiso Report

EXECUTIVE SUMMARY

Kohesio is a comprehensive knowledge database offering accessible information on projects and beneficiaries funded by the EU Cohesion Policy during the 2014-2020 programming period.

It encompasses over 1.5 million projects and 500,000 beneficiaries financed by the European Regional Development Fund (ERDF), the Cohesion Fund (CF), and the European Social Fund (ESF).

Kohesio gathers and standardizes data from publicly available lists of operations published by managing authorities across EU member states. Users can explore projects through various filters, download datasets, and utilize integrated mapping features.

While striving for accuracy, Kohesio acknowledges potential discrepancies due to variations in data structure and completeness among source lists. The project encourages user feedback to further enhance its data quality and comprehensiveness.

CONSIDERATIONS ON THE BUSINESS CASE

The Kohesio project serves several strategic purposes aligned with promoting transparency and accessibility within the context of EU Cohesion Policy. Firstly, ¹ states that EU Cohesion Policy aims to strengthen economic, social, and territorial cohesion within the union by supporting numerous projects through various funding mechanisms. By aggregating and standardizing data from publicly available lists of operations ¹, Kohesio creates a centralized and easily accessible resource for understanding the impact and reach of these investments. This facilitates greater transparency regarding how EU funds are utilized and enables stakeholders to track progress towards achieving policy objectives. Secondly, Kohesio enhances public engagement and accountability within the framework of EU Cohesion Policy. Making detailed project information readily available empowers citizens, researchers, journalists, and policymakers to scrutinize project implementation, identify trends, and evaluate outcomes. This promotes informed decision-making and fosters a sense of ownership over EU-funded initiatives. Furthermore, Kohesio simplifies data analysis and research efforts related to EU Cohesion Policy. Researchers and analysts can leverage the standardized dataset to conduct comparative studies, analyze geographical distribution patterns, assess program effectiveness, and draw evidence-based conclusions. This ultimately contributes to improved policy design and optimization strategies. Finally, Kohesio aligns with the broader trend toward open data

Dear 

Thank you for contacting the Europe Direct Contact Centre.

Air Passenger Rights - Standard replies 2. PARAGRAPHS ON SPECIFIC INQUIRIES 2.4. INQUIRY ABOUT DELAY -> 2.4.2. Delay at arrival

If you suffered a delay of at least 3 hours on arrival at the final destination, you are entitled to financial compensation in accordance with Article 7 of Regulation (EC) 261/2004, unless the delay was caused by extraordinary circumstances that could not have been avoided if all reasonable measures had been taken.

We hope you will find this information useful. Please contact us again if you have other questions about the European Union, its activities or institutions.
